FRONTEND DEVELOPER

Experienced and tech-savvy Software Developer with a deep proficiency in JavaScript, React, HTML, and CSS. A certified AWS Cloud Practitioner with demonstrated expertise in cloud platform utilization. Passionate about solving complex problems with efficient, elegant, and scalable solutions. With years of experience in designing, developing, and deploying web applications, I possess a strong understanding of the full software development lifecycle, from ideation to maintenance. My dedication to creating innovative, secure, and scalable applications ensures that the needs of both businesses and end-users are met.

AREAS OF EXPERTISE

- Software Development
- Cross-functional Collaboration
- Automated Testing
- Cloud Technologies
- Process Optimization
- Performance Improvement

TECHNICAL PROFICIENCIES

Markup Languages: HTML | XML

Version Control: Git | GitHub Actions

Front-end: ReactJS | Tailwind | Bootstrap

Cloud Computing: AWS | GCP | AZURE Cloud

Data & Databases: MySQL | PostgreSQL | MongoDB

Project Management: Agile Methodologies | Scrum | Waterfall

Operating Systems: Linux | Unix | Microsoft Windows | Android | iOS

Back-end: Django | Flask | RESTful APIs (Django Rest Framework) | MVC structure

Programming Languages: Python | Go | JavaScript | TypeScript | Shell Scripting | Bash

Software Testing: JEST | Cypress | Unit Testing | Test Driven Development | E2E Testing

CAREER EXPERIENCE

Araz IT Solutions Inc. – Montreal, QC
Frontend Developer   **2022 - Present**
Assisted in the design, development, and testing of software applications using various programming languages and tools. Collaborated with cross-functional teams to analyze and document software requirements. Conducted research and provided recommendations on emerging trends and technologies in software development. Assisted in the maintenance and support of existing software applications. Participated in Agile development methodologies such as Scrum or Kanban. Assisted with the troubleshooting and debugging of software issues as they arose.

Key Accomplishment:

- Successfully migrated an existing legacy application to a new platform, resulting in improved performance and reduced maintenance costs.
- Developed and maintained a user tracking and analytics system that provided detailed insights on user activity across a web application.
- Received recognition from senior management for outstanding work ethic and team collaboration skills.

Software Developer   **2017 – 2019**

Responsible for developing and maintaining cloud-based software solutions that supported various business functions. Worked closely with project managers, software architects, and other developers to design, develop, and implement scalable and maintainable software solutions according to the business requirements. Developed and maintained software documentation and user manuals. Worked with QA team to ensure high-quality software delivery.

Key Accomplishments:

- Accomplished recognition by senior management for great leadership skills.
- Developed and launched a new cloud-based product that generated a noticeable amount in revenue in its first year
- Successfully migrated an existing legacy application to a cloud-based platform, resulting in improved performance and reduced maintenance costs.

KEY PROJECTS

- **OmniFood** (2023 – Present) **| Technologies:** JavaScript, ReactJS, HTML, CSS
- **Raspberry PI Google Assistant** (2022) **| Technologies:** Python, BASH, Shell scripting

EDUCATION

- **Diploma of Computer System Technology, 2022**
  Seneca College of Applied Arts and Technology – Toronto, ON

- **Bachelor of Science, Electrical Engineering, 2013**
  AZAD UNIVERSITY – Tehran, Iran

CERTIFICATIONS

- **AWS Certified Cloud Practitioner 2023**
  Issuer: AWS

- **Microsoft Azure Cloud Fundamentals 2022**
  Issuer: UDEMY

- **The Complete 2022 Web Development Bootcamp2021**
  Issuer: UDEMY

LANGUAGES

- **English** (Working Proficiency) **| Persian** (Native)
